

### News From Your TOWN HALL

Action was taken by the Commission which, for the present, must be kept quiet, but which, we are sure, the entire Town will rejoice in.

There are great plans for the advancement of Belle Glade and to make your investments here surer and to make this a better place in which to live and rear your families.

Don't forget to check to see if your name is on the list of freeholders, or if your friend's name is on it.

The books will be kept open until Saturday before election that is September 9th.

The Town Fathers devoted some time to the discussion of the proposed bond election to be held on September 12th and decided to ask the citizens to meet with them to discuss the whys and wherefores of the proposed bond issue.

### Local Legion Active In Administration Of G.I. Joe's Rights

Five legionnaires and one Auxiliary member attended the school held in Daytona for the "Service Officers" throughout the State, to learn just how, when and where returning service men and women may receive full benefits of the Bill of Rights.

No larger or more interested delegation was present from an individual Post. The larger Posts have a paid Adjutant or Service Officer; smaller ones must rely on volunteers, as does Belle Glade.

National representatives of Civil Service, F. S. A. loan department, American Legion, Veterans Administration and other interested agencies were heard in explanations of veterans rights.

The most forceful, knowing and interested representation of the Civil Service Commission ever heard by military was Col. Frank Chalmers of Atlanta, a retired with two years service in war II, now chief ironer-out of civil service misfits, mistakes, and in fairness, Particular attention is given by Col. Chalmers to veterans of both wars.

His preferences are many and stiff penalties of imprisonment and/or fines are provided for mismanagement of veterans.

Mike Murphy, local Service Officer for the Legion will be assisted in combing the notes of local contingents by Mr. J. C. Frank Chalmers of Atlanta, a retired with two years service in war II, now chief ironer-out of civil service misfits, mistakes, and in fairness, Particular attention is given by Col. Chalmers to veterans of both wars.

No word was given officially on the loan feature of the Bill as no determinations under the law have been issued by the Administration of Veterans Affairs. However, it was intimated that existing agencies will be utilized as much as possible in carrying out loan provisions.

### Merchants To Have Local Organization

At a meeting of the Board of Directors Thursday night the Chamber of Commerce decided to sponsor a Merchants Division. L. Will, Joe Gold and Milton Campbell were appointed a committee to contact merchants and report back at a meeting to be held soon.

### INVITATION

Your Town Commission has seriously considered, for a long time, the question of the Water Department, and have concocted a plan whereby we can enlarge our plant, secure better water charges, and make room for the further growth of the Community. We believe the plan has a lot of virtue, but we wish to have the benefit of consideration and advice of our citizens.

To that end we are inviting representatives of each civic club or group to have a representative meet with us Wednesday night, August 25th to compose a Committee to study and offer suggestions concerning the proposed bond issue in all its phases.

If your Community, your water works and your money will be spent—so see that your club or group are represented.

For the Commission  
J. K. Baker, Mayor

### Housing Problem Will Effect Labor

The annual trek of migratory workers is now well under way and the influx here threatens an acute housing problem during the winter season that may seriously handicap laborers that are coming to the area.

According to Miles W. Anderson, manager of the Ocala Labor Center, 450 people are now in the camp, most of these having stayed through the summer. All wooden houses are occupied and applications are turned down every day for living quarters.

The some 150 metal houses will not be opened for rental until the middle of September or the first of October because of the heat rendering them unlivable until that time.

I could have rented 200 houses in the last month," said Mr. Anderson, "and though we are going to double up in cases of single men or single women and put as many as possible in each shelter, the situation still will only be partly relieved."

At the Okeechobee Migratory Camp for negro laborers, Manager Henry O. Earwood reports his camp over 50 per cent full at the present time and the families are moving in at a rate of three per day. If this continues, the camp will be filled to capacity long before the real season begins.

Individually owned camps in town are reported to be filled now and inquiries are coming from northern sections where the harvesting season is nearing a close.

### Six Local Whites To Be Inducted

Six registrants of the Local Board and one transferred for induction left Belle Glade this morning for the induction Center.

All of these candidates are under 26 or were engaged in an effort not essential to the war effort.

Recent instructions indicate that those over 26 are engaged in any endeavor fairly resembling the war effort will be given deferment if requested.

However, the Army insists that those under the 26 age limit will be given "Greetings."

### Intention Announced For Price Ceilings On Florida Cabbage

The OPA has announced its intention to establish ceilings on cabbage, with a statement that industry will be given an opportunity to be heard before effectiveness is given to the scale.

This announcement came thru the Florida Vegetable Committee at Orlando which is continuously working on price ceilings on the numerous products vital to the Glades Farmer.

The schedule follows: \$55 per ton for Dec. through April; \$50 per ton for May through August.

\$45 per ton for September through November.

This includes all costs of harvesting, hauling, packing and inspection, and no additional charge may be made for containers or for any other materials or services furnished.

### The Lions Won't Forget You!

Members of the Committee headed by the Lion Club to secure a tennis court in the Town Park is anxious that the public know that each individual will be called on and given an opportunity to donate to the fund.

Members of the Committee—George Royal and George Scarborough—have canvassed a part of the town and have been very successful. Other merchants will be contacted sometime soon. Individuals will then be given an opportunity to donate.

"Remember that every dollar given by the citizens will be matched by the Town Fathers," stated a member of the Committee.

### Does He Get The Herald?

If there is any change in address of your soldier boy or girl let us know.

If any local boy or girl in uniform is not getting the Herald it isn't our fault. We want them to get it.

### Machinations Of Politics Left Out Of New RDB Board

#### Public Trough No Longer To Be Swilled By New Promotion Set-Up

With a very generous representation from both, Pahokee and Belle Glade, over 200 men and women of the County met with the Junior Chamber of Commerce last Friday noon and effected a reorganization of the politically liquidated Resources Development Board.

An example of well planned ground work was apparent to the audience as Pete DeMoya, community president, presided over the business session of the meeting.

As each Committee reported thru its Chairman—and only of the County Wide Committee Chairmen was from West Palm Beach—there was built up in the minds of John Q. Citizen a wholesome respect for the membership of the various committees and the very evident thoughtful consideration given to the question in hand.

Practical business-like recommendations were advanced by the various committees and seconded followed by a unanimous affirmative show of hands.

Al R. Neilson headed a Budget Committee composed of bankers and something over \$10,000 was suggested as a budget for administration alone. A suggestion was made that any funds above that amount be for promotion, and additional funds were suggested.

Quotas were suggested by the appropriate committee headed by W. R. Jackson of Lake Worth on the basis of fifteen cents per person according to the 1940 Census in May of last year. This would raise some Twenty odd thousands, which is figured as a minimum starter.

There will be three classes of membership: 1, \$250 for the larger business firms and individuals; 2, \$25 for the smaller businesses and individuals; 3, a \$2.50 fee for the corn field variety of membership—me and you.

Memberships will be solicited by a County Committee and one for each of the seventeen incorporated municipalities.

Present officers and directors are to act until their successors are elected as provided by the by-laws to be drawn. Each community will elect its own member of the board of directors.

The effectiveness of the RDB is indicated in the widespread representation of the County's communities.

### Rev. Peebles At Clewiston Church

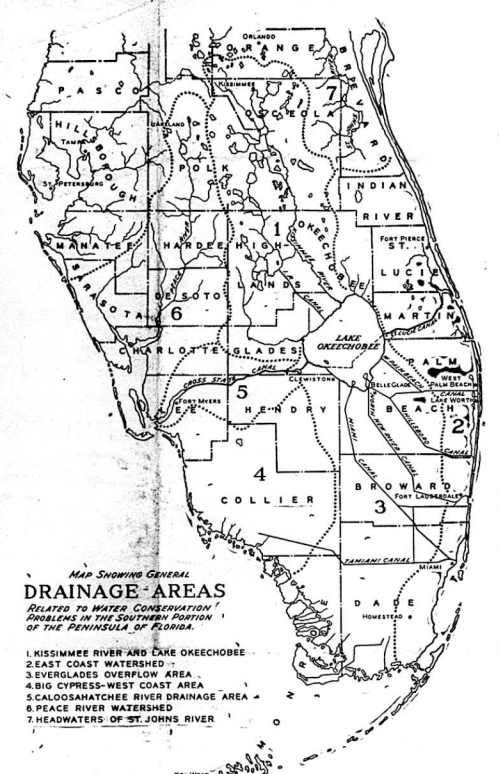

Rev. James D. Peebles CTG of West Palm Beach, will fill the pulpit at the First Baptist Church, Clewiston, Fla., Sunday morning will be "America's place in the World," and the evening sermon, "A Cup of Cold Water."

Under the able direction of Dr. Minnum of the Experiment Station, Frank Willer and Mr.

### South Florida's Water Problem

It is not one of an insufficient supply of water so much as it is the lack of proper management and control of the water that is available as rainfall.

It has three hydrologic units:

KISSIMMEE VALLEY problem is too rapid runoff of natural rainfall and lack of control facilities for retaining rainfall in lakes and other natural basins.

LAKE OKEECHOBEE is the natural outlet for the Kissimmee River and adjacent watersheds and the only considerable source of water supply for water control in Upper Glades.

There is a deliberate wastage of water thru the St. Lucie and the Caloosahatchee Canals.

Haslip the Boy Scouts of Belle Glade are jussing themselves with the water drive.

Present plans call for collection each last Thursday in the month. However, if there are enough homes and places of business that have paper after yesterday's drive arrangements will be made to collect it before the right day—Thursday, September 29th.

In order to facilitate the collection of the paper, it should be packaged or tied.

The boys are carrying the paper to Miami and will add the funds received to the local Scout Fund.

Help your country and help your local Boy Scouts by saving your waste paper.

1. Kissimmee Valley and adjacent watershed tributary to Lake Okeechobee.

2. Lake Okeechobee — reservoir and major control unit.

3. The Everglades — the original overflow area.

### Horatio Alger Aspect Of Belle Glade Water Department Continues

#### Incumbents Without Opposition In Race

No one appeared before the final date for filing to compete with Little Doe Van Landingham and C. W. McDonald for the two jobs as Town Commissioners.

One Commissioner didn't know whether this lack of opposition is from satisfaction with past performances, or laziness on the part of likely candidates.

We were unable to get a named man who would spend freely for newspaper advertising interest. It is evident that he has time to remember the good days of the last State and County campaign for satisfaction with political aids.

### Tilly Walker Gets "The Bird" But It Has Bright Feathers

Tilly Walker, the Life Underwriter—just plain insurance agent to you and me—has just been notified that he is number one man in Florida for production during the fiscal year of 1944.

All this came from a well about 21 or 25 feet deep.

In 1937, one of the benevolent alphabetical organizations seeking a reason for continuing their funnel to the U. S. Treasury came along and said "Here you are. You need a water plant. We will design one to do you for ten to fifteen years, give you some of the money and lend you the balance because you are mostly good democrats and some of you voted for Claude Pepper."

Well, we accepted Uncle Stan's Clats' offer and they had the experts design the ten to fifteen year plan.

In 1939 the Washington boys came back and said "You youngsters are growing too fast; you need your water plant made larger on account of the government migratory camps." So the plant was doubled in capacity, on the old plan, good for fifteen years.

Since 1939, we have doubled the capacity again thru our own labor on account of our own money, and kept the interest and installment payments' up to date and have money in the bank.

Now we are just about reaching the end of our rope, and we're present plan by adding on; we've got to build a new plant.

Everybody knows that we should have gone to the Lake for our water because it is soft, pure, and the best water available in South Florida. Even Miami is figuring on getting Lake Okeechobee water.

The cost of treating the Lake water to insure its purity will be practically vanish; we will have soft water and good palatable drinking water.

We will have as good paying customers, at a profit, the U. S. government in three places, two camps and the hospital, the state government in two places, the Experiment Station and Prison Farm and the U. S. Sugar Corporation.

We can furnish the corn plant what it wants now, besides a lot of individual customers who are not on the line now.

In other words, we have enough capacity to furnish ourselves and our good customers who are ready and willing to buy at a profit, unless we get more and better water to sell.

We can borrow money at a cheap rate of interest and take 20 or 30 years to pay it back. Before we see her jewels to help Columbus, Now, the Pope, as you know, is the emissary of Jesus Christ, who is the Son of God; and God is so commonly accepted, made the world.

Therefore, I believe it is safe to presume that He also was that part of the U. S. called Louisiana.

And I hope to hell you're satisfied."

### Growth Is As Unusual As Weeds and Grasses In a Vegetable Field Here

Belle Glade's Water Department was born among varying emotions of initiative, ingenuity and innocence typical of pioneering communities.

Seers Sawback and Monkey Ward, as well as others make a water plant for small users which will automatically keep the pressure in a tank at a given figure, so that you have water available at all times.

Belle Glade's original water system was of that type. If a new customer wanted water, the pump time employees were given a shovel, a pipe wrench and a few lengths of pipe and told to give him water.

Remembering his geometry teacher's statement that "a straight line is the shortest distance between two points," the pipe was laid in a bee line for Mr. Blank's lot, with the hope that it ended near the back door, or maybe in the kitchen.

Mr. Blank just used what ever water he wanted, and if he got around to paying the town that was alright. But the customers didn't—that was alright too. Most customers were from one to three years behind in the small charges.

Everybody in town had to do without water while the connections were being made.

All this came from a well about 21 or 25 feet deep.

### SERVICE MEN who FIGHT and WRITE

Mr. and Mrs. Motes also have two other sons in the service. Jesse, twin brother to David, who is with the Coast Guards in California, and Lewis, Private First Class stationed at Fort Rucker, Kansas.

CP. RUDOLPH MCILLAN Corporal McMillan was recently promoted to this rank from that of private first class. He is in the Medical Corps and stationed at an evacuation hospital in North Africa.

PVT. WILLIAM F. HILL JR. Private Hill writes that he is stationed at Camp Blending, with the 191st Infantry Battalion and expects to visit here soon on a furlough.

LT. BUSTER WILLIS Lieutenant Willis was transferred from Camp MacCall to Fort Bragg, N. C. in June and believes he will be permanently stationed there. He writes that he is allowed to spend each week with his wife and three month old daughter in Raleigh, and his only complaint is that he has been unable to persuade the Army to allow him to join a combat unit and go overseas.

PFC. PAUL LANGFORD Private First Class Langford of the Marine Corps received a cut thumb when a Jap Commando tried a midnight raid on his foxhole during the invasion of Saipan, Marianas Islands. Langford was occupying the foxhole with three other Marines when they were awakened by a commotion caused by a "bayonet" routine finally fitted the "Jap" right into their foxhole and quickly seized weapons did the rest.

PVT. MONTE HUEBNER "I am just another fellow who entered the Army from Belle Glade and am now serving in Italy. Like most of the fellows over here, I'm hungry for news from home. We know plenty about the war but we don't know much about what's going on around home. Sure wish you would send me the Herald. Harry Curry, my step father sends me a bit of news, but not enough."

"I have an eight weeks odd in Belle Glade word of course I have never seen."

"Maybe we will be home before long as things look brighter here every day."

AAC WILLIAM RAWLS Aviation Cadet Rawls is now enrolled as a student in the preflight school at Maxwell Field, Alabama, an installation of the Army Air Forces Training Command. There he will receive nine weeks of intensive military, physical and academic training.

Roscoe Harris and Jack Murray are also stationed there.

TSGT. GEORGE ALLEN Technical Sergeant Allen, son of J. N. Allen has returned after having served eighteen months in the European and African theatres of war as a B-26 crew chief. He is now at the Army Air Forces Distribution Station at Miami Beach where his next assignment will be determined.

PFC. DAVID MOTES Private First Class David Motes, son of Mr. and Mrs. Motes, is stationed in New Guinea with an Air Afloat Unit. David enlisted in the Army in May '42 and has been very successful. Other merchants will be contacted sometime soon. Individuals will then be given an opportunity to donate.

### Did Jesse Get His Legal Information?

Jerry Klutz, in the Washington Post, reveals a classic letter from a New Orleans lawyer to the RFC recently. The RFC about to loan money to the lawyer's corporate client, asked for titles as far back as 1893. The RFC wrote asking who owned the land before that? The lawyer responded: "Gentlemen:

Your letter regarding titles in case No. 198156 received. I note that you wish titles to extend further than I have provided them. I was unaware that any educated man in the world failed to know that Louisiana was purchased from France by the U. S. in 1803.

The title to the land was acquired by France by right of conquest from Spain. The land came into the possession of Spain by right of discovery made in 1492 by a Spanish-Portuguese sailor named Christopher Columbus, who had been granted the privilege of seeking a new route to India by the then reigning monarch, Queen Isabella.

The good Queen, being a pious woman and careful about titles to (almost as careful, I might say, as the RFC) took the precaution of securing the blessing of the Pope of Rome upon the voyage, before she set her jewels to help Columbus. Now, the Pope, as you know, is the emissary of Jesus Christ, who is the Son of God; and God is so commonly accepted, made the world.

Therefore, I believe it is safe to presume that He also was that part of the U. S. called Louisiana. And I hope to hell you're satisfied."

**CINEMATIC CHAPTER**

By Malcolm Miller  
Six orchestras, assisted by a large band, were headed by Ann Miller in the star role, are presented in the musical extravaganza "Juke Joint" which will make its debut at the Everglades Theatre Sunday and be screened for two days, Sunday-Monday. According to its high class entertainment, it is a picture that should be appreciated by all theatre goers.

Tuesday-Wednesday brings another double featured program headed with Jane Frazee, John Hubbard, Judy Clark, Bob Haymes and Willie West and McQuinn, a host of other well known players on air and screen, in a comedy that has all the earmarks of being a rip-roarer, so far as laughing slides go.

On the same program comes "Shake Hands With Murder," which lists in its cast Iris Adrian, Frank Jones, Douglas Kenney, Ray Raymond, Claire Rochelle, Herbert Rawlinson, Juanita, Stan Jolley, Forrest Taylor, George Kirby and Gene Stutenhorst. This one is said to be a thrilling and wholly absorbing.

deck and the technicians and their efforts men would have their hands full trying to keep up with the proceedings.

No matter how closely listened to, the speakers would be necessary to interpret the activities and insure a half way intelligent herding of events.

Kalichman, Fulton Lewis, Jr. might serve as announcers: They are debating the Murray-Kilgore bill, Senator Pepper is rising from his seat. His recognized, he has the floor. We switch you now to Florida. We have a hard time to take of Florida's Junior Senator, the Honorable Claude Pepper, take it away Senator.

"Mr. Pringle, Gentlemen of the Senate and Radio Listeners, I am profoundly distressed. I have just learned that one of our soldiers had his pockets picked in Naples and it left him absolutely broke. I hope someone sent him an ANONYMOUS check with the message, 'Go ahead and enjoy yourself, from somebody who appreciates you.'"

Announcer, (cutting in) "We don't know what the Senator means by 'Anonymous Check.' We were under the impression that all checks are signed with a name signed to them, and even with names on 'em some aren't."

Senator has something there. If the bank will furnish the checks, we'll be glad to send every soldier we know a substantial one signed 'ANONYMOUS' whether they have had their pockets picked or not, they may have lost everything in a crap game."

There will be a slight pause for Station announcements. At sound of the gong it will be exactly 12 noon, unless somebody set the clock back. Tune in again tomorrow, same time, same place for your favorite program, 'Congress in Action.' Send your social security card and three red tokens for a printed copy of today's proceedings."

New Phone Book Is Delivered Here  
Distribution of a new telephone directory was completed here August 15th. A total of 385 copies were delivered to local homes and offices, according to the report of A. R. Whidden, Southern Bell Telephone and Telegraph Co.

Mr. Whidden pointed out that the new book is bound with a gray cover that make it easily distinguishable from the old green covered directory. The new book should be used on all calls in the future to decrease the possibility of subscribers getting wrong numbers.

"If the old directory were not taken up at the time of the new

one's delivery, it should be turned in with other waste paper. Because of wartime paper shortage, use of paper for printing telephone directories has been restricted, Mr. Whidden said. He asked that telephone users take the best possible care of their directories, pointing out that only enough copies to fill essential needs had been printed.

If any subscriber has not received his copy of the new directory he should notify the telephone office and a copy will be sent promptly.

Churches of Christ, Scientist

"Christ Jesus" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, August 27.

The Golden Text is: "Though Israel be not gathered, yet shall I be glorious in the eyes of the Lord, any my God shall be my strength."

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The next day, John seeth Jesus coming unto him, and saith, Behold the Lamb of God, which taketh away the sin of the world."

## Do You Know This Man?

He is your electric repair dealer...and he is on the go...day and night, keeping electrical equipment working in spite of war time handicaps. Bill is doing a great job, in spite of the handicaps of labor shortage, lack of transportation, shortage of parts, tools and materials. Bill is typical of today's Electric Industry...experience and skill are always at your service. So, on behalf of Bill, we ask your indulgence of customers in connection with the difficulties war has brought on. Bill is anxious to serve you. But, before you call him, make 17-20 checks, which may save you the cost and inconvenience of an unnecessary call, and allow him more time for essential repair jobs. Bill will be there when you need him...you can depend on that. No one knows better than your repair dealer that...BETTER CARE MEANS - LESS REPAIR.

## BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BRAGADIST

Question—Does the word "Christ" mean the same as "Jesus"?  
Answer—The word "Christ" means anointed and "Jesus" means savior. See John 1:41 (margin) and Matthew 1:21.  
Q—Where can I find the verse in the Bible which says that when the earth passes away the Ten Commandments will pass away also?  
A—There is no such verse. The Bible says just the opposite: "Heaven and earth shall pass away, but my words shall not pass away." Matthew 24:35. And the Ten Commandments were the words of God. (See Exodus 20.)  
Q—Why do some say that hell is not essential?  
A—We cannot answer for what people say. The Bible says: "He that believeth and is baptized shall be saved; but he that believeth not shall be damned." Mark 16:16.  
Q—Is it old fashioned to believe that the Bible is inspired? What do you think?  
A—It may also be old fashioned to believe that two plus two equals four, but that is believing the truth. In 2 Timothy 3:16, we read: "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness."  
Q—If God created the devil, is he not responsible for the evil in the world?  
A—According to the Bible, God created a perfect angel, who as a free moral agent fell through pride. (See Ezekiel 28 and Isaiah 14.) This angel, Lucifer, made himself a devil and was cast out of heaven. Revelation 12:9. Jesus said, "I beheld Satan as lightning fall from heaven." Luke 10:18.

## PIANOS

Just unloaded another car load of nice clean medium sized UPRIGHT PIANOS. These instruments were individually selected and all are of well known makes. The finish on many of them can scarcely be told from new. The actions are first class and the keys clean and white. Included were several fine self players and we have all the new tunes on player rolls for them. These Pianos can be purchased at a fraction of their original cost. Terms if desired.
